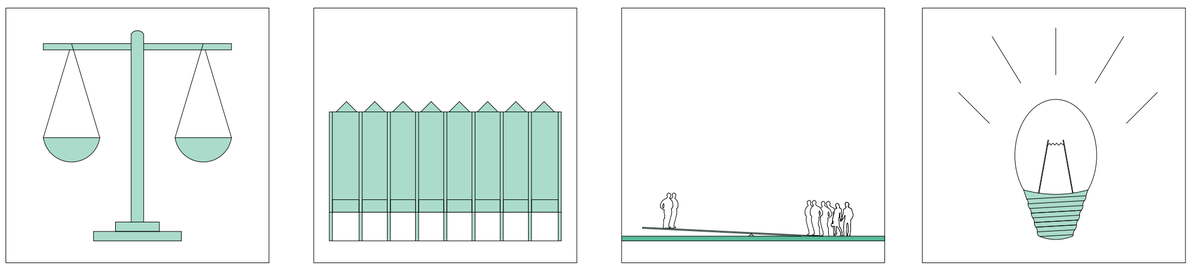
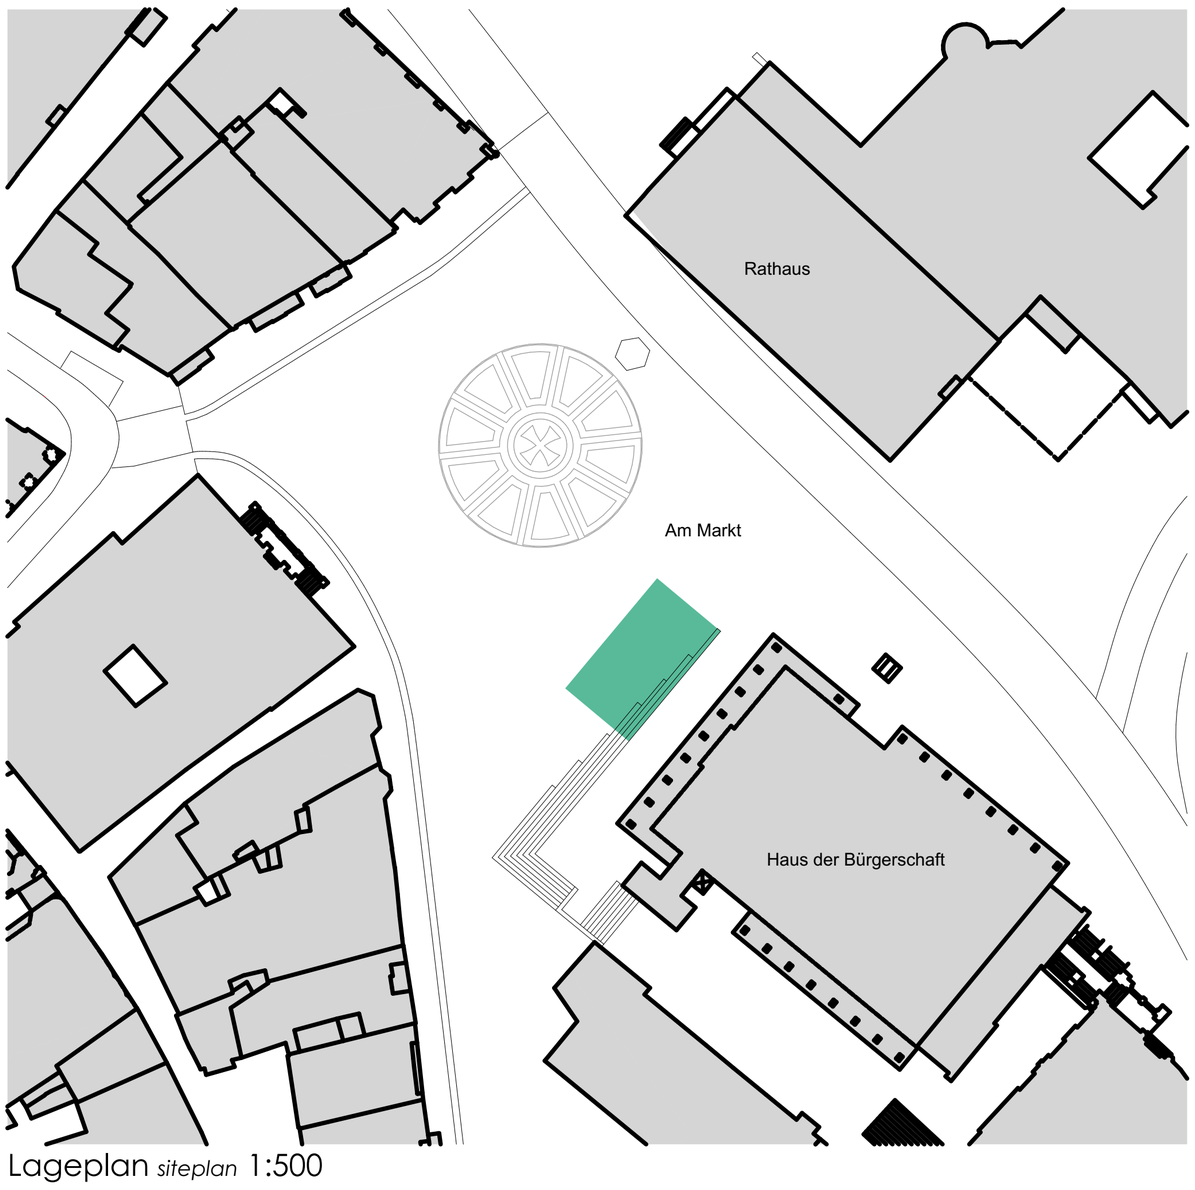
Bremer | Waage

Die Grundidee des Entwurfs sieht eine interaktive Nutzung des Bauwerkes vor, sowie die Anregung zur Auseinandersetzung mit aktuellen Themen. Die Wippe ist so realisiert, dass eine sichtbare und spürbare Auslenkung bei korrekter Positionierung und somit eine Beantwortung einer zuvor gestellten Frage stattfindet.

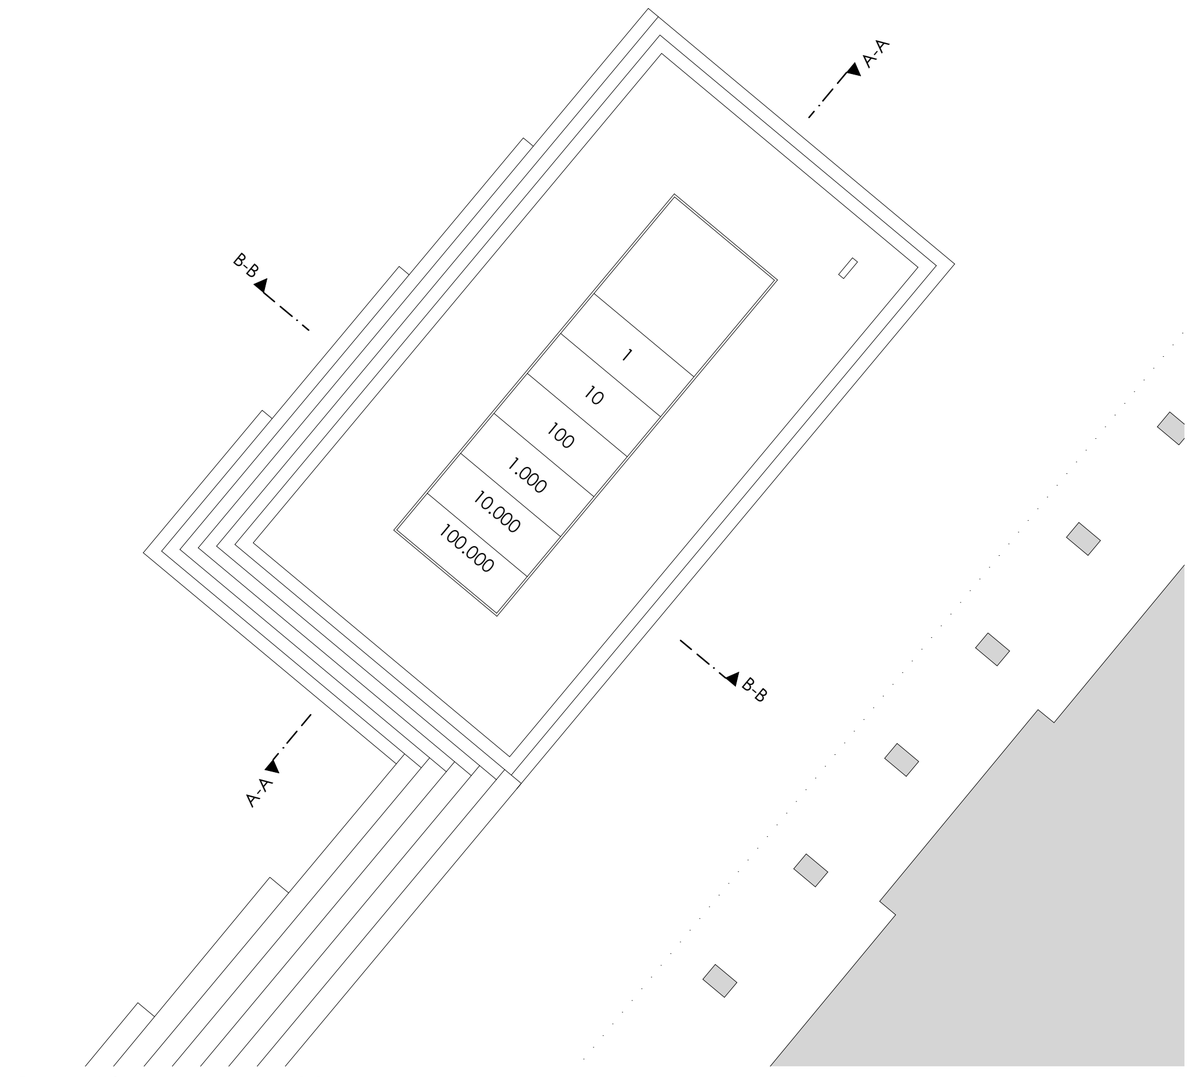
The basic idea of the design is an interactive use of the building, as well as the suggestion to deal with current topics. The seesaw gives a visible and noticeable reflection by correct positioning of the user, answering a previously asked question.



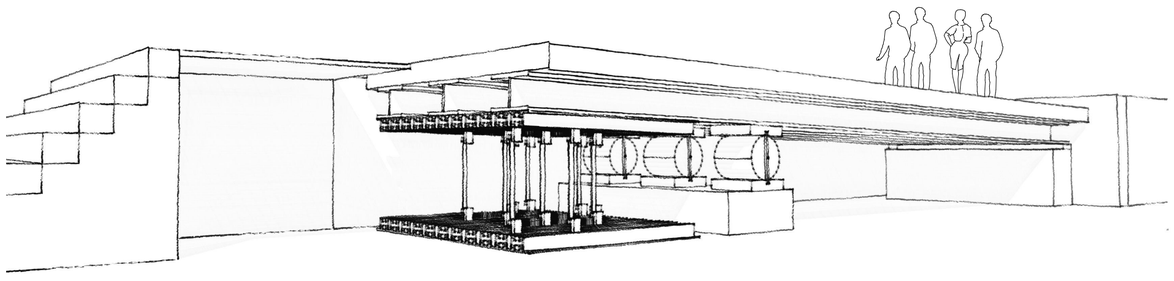
Konzept *concept*



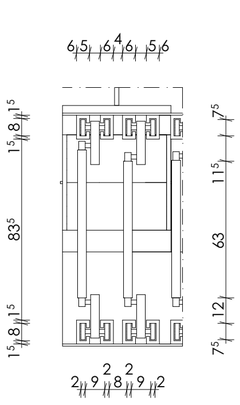
Lageplan *siteplan* 1:500



Grundriss *floorplan* 1:100



Perspektive *perspective*

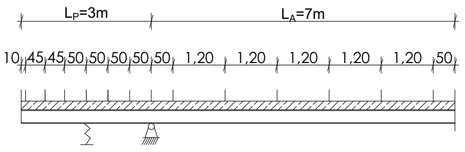


Detail *detail* 1:20

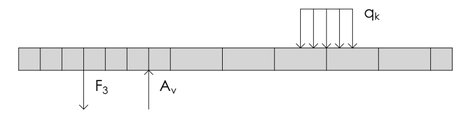
Beispiel:
Wieviel Liter Wasser werden durch einen Tropfen Öl verunreinigt?

How much water is polluted by one drop of oil?

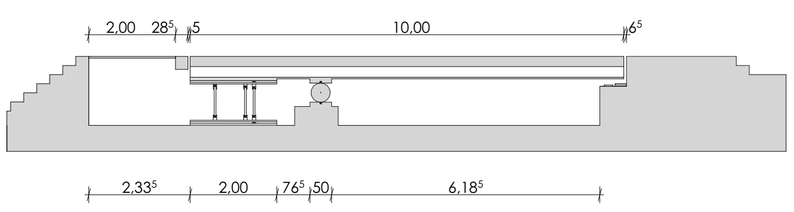
A: 1000Liter



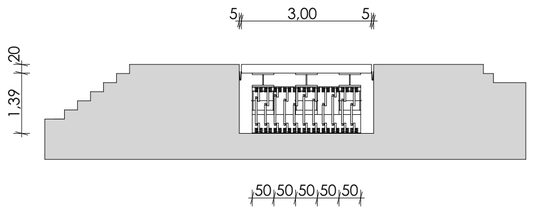
Statisches System *static system*



Freikörperbild *free-body diagram*



Schnitt *section* A-A 1:100



Schnitt *section* B-B 1:100

Biegelinie *deflection curve*
